**Subject:** site visit opportunities for Eva

Hi Eva.

I checked in with PMs on these and a few other sites for potential visits on Nov 5th pm and 6th am for you. Erin is working with the contractor to try to set something up for the afternoon of the 5th at PEO. She will get back to you today or Mon on that.

It's not a great time for other sites right now: GS Roofing wrapped up sampling and there is nothing else going on there right now to view. Schnitzer/Burgard sites are still in the site discovery phase and we have struggled to get dates coordinated for the many parties involved, but have nearly completed those initial visits. As we discussed, Gunderson is completing the bank work on a deadline to meet permit requirements and will aim to be complete before Nov 5th. I plan to set up a site visit at Gunderson on stormwater (with the City inspector as well) in Dec-Feb, when it is raining and will include you then (b) (6) I will be coordinating with the City on other sites to inspect together, also starting in Dec and will let you know what is available as we go.

Talk to you soon and have a nice weekend.

--Alex

**Subject:** PEO trench construction

Hi all-

I'm interested in visiting PEO during their trench construction and was wondering when this would be occurring. It'd also be great if other site visits could be arranged the same time that might also be having some activity....GS Roofing? Gunderson? Burgard Schnitzer? SW inspections with CoP? Thanks.

Eva
